EDUCATION

University of Toronto — HBSc in Computer Science, Co-op Program (ASIP)

Expected April 2029

- Relevant Coursework: Software Engineering, Algorithmic Game Theory & Mechanism Design, The Design of Interactive Computer Media, Artificial Intelligence, Algorithm Design/Analysis & Complexity, Operating Systems, Software Design, Multivariable Calculus, Data Structures & Algorithms, Probability & Statistics, Computer Organization
-

SKILLS

Languages: Python, Java, JavaScript, HTML, CSS, C, Swift, MIPS Assembly, R, LaTeX

Frameworks & Libraries: SwiftUI, React, NumPy, Pandas, Pygame, p5.js

Tools & Design: Git/Github, VS Code, Xcode, IntelliJ, Figma, Procreate, Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro, After Effects), Excel, Canva

PROJECTS

FairyTale — iOS Storybook App ([GitHub](#))

- Independently designed and developed an **iOS storybook app** using SwiftUI and SwiftData, allowing users to create and save personalized stories with interactive content.
- Created the app's **illustrations, UI/UX, and original music** from scratch, managing the project from concept and visual design through implementation.

Trivia App — Java Desktop App ([GitHub](#))

- Collaborated with a multi-developer team to build a **Java trivia application** supporting user-generated questions and API-sourced question banks through Open Trivia DB.
- Implemented **persistent state management, question-set serialization, and dynamic UI rendering**, while using Git/GitHub pull requests and code reviews to coordinate development.

StarLinks — Python Graph-Based Actor/Movie Connection System ([GitHub](#))

- Built a **graph-based actor–movie search engine** with an interactive React front end, modeling relationships between actors and films (inspired by The Six Degrees of Kevin Bacon).
- Implemented **BFS shortest-path search** using adjacency lists with $O(V + E)$ traversal complexity.

Java Cafe — Interactive Teaching System ([p5.js](#))

- Built the **UI/UX, animations, and interactive visualizations** to teach object oriented inheritance, a fundamental programming concept to high school students.
-

EXPERIENCE

Director of Communications

UTCSN (UofT Commuter Student Network)

July 2026 – Present

- Lead the club's **visual identity and communications**, developing marketing direction, colour palettes, social media content, and videography concepts.
- Created promotional and social media assets using **Figma and Procreate**, maintaining a consistent visual identity across club communications.

Design Executive

UofTHacks

March 2026 – Present

- Designed **UI mockups and visual assets** for the UofTHacks website and Instagram using **Figma and Procreate**.
- Collaborated with a **40+ member cross-functional team** across software, product design, and marketing to improve user experience and coordinate design projects.
